Building Video AI Applications at the
Edge on Jetson Nano

Federico Lanzani

Co-Founder & CTO Magic Vision • Building computer vision products
since Python 2.7

Italia

Riepilogo

Software engineer and former data science intern at Leroy Merlin.

I have designed, developed and released software for years,
ranging from web applications to computer vision and artificial
intelligence systems.

I've founded magicvision.ai together with a group of friends. We've
established a startup dedicated to developing custom artificial
intelligence solutions.

Previously, I've experimented various startup projects, including a
marketplace for automation solutions and a surveillance system.

While my formal education has provided me with solid foundations,
I build my skills through self-directed learning and a lot of
experiences.

Currently, I'm pursuing my computer science degree at
the University of Milano Bicocca.

In addition to my technical skills, I am passionate about sailboats.
In 2016 together friends, we formed a sailing team to participate in
competitions. Since 2019 I have been teaching sailing and since
2022 I have been a national instructor.

My scouting journey began in 2009 and ended in 2020. During these
years, I have gained valuable life lessons and experiences that
continue to guide me on both a personal and professional level.

Esperienza

Magic Vision

Co-Founder & CTO

settembre 2022 - Present (3 anni 1 mese)

PoliHub - Innovation Park & Startup Accelerator
Switch2Product startup program
gennaio 2024 - giugno 2024 (6 mesi)

Leroy Merlin
Data Scientist
ottobre 2022 - aprile 2023 (7 mesi)
Assago, Lombardia, Italia

Annje Bonnje Sailing School
Sailing Instructor
2019 - 2023 (4 anni)
Como, Lombardia, Italia
